Privacy Policy

Part 1

What information does the Application obtain and how is it used?

1. The Application does not provide an option to create an account, therefore we do not store nor have access to your entries and data. Your data are stored only locally on your device and all calculations are done on your device as well.
2. We obtain your email address when you request support via email or customer support contact form. We use your email only to contact you to provide support, feedback or important information.

Part 2

1. Our application may collect some anonymized usage data that are essential for us to deliver our services, to understand your requirements, and to improve our services. Such as app launches, taps, clicks, scrolling information, in-app purchases, screen visits, session durations, or other information about how users interact with our app. These data are fully anonymized and aggregated and thus not linked to any particular user. The application may also collect crashes and performance reports so we can improve the stability and performance of our app.

2. The application does NOT collect any user-generated content. Such as your name, surname, email, photos, or anything you type within the app. Your entries and memories are truly private and fully under your control.

Part 3

We reserve the right, at our sole discretion, to modify or replace this Policy at any time. Any changes we may make to our privacy policy

in the future will be posted on this page. You should check this page from time to time and take note of any changes.
